WINDSURF

Blast around at low tide in the trench in super flat water and practise your carve gybes, or wait for the tide to push up and enjoy some great south coast wave sailing and jumping. West Wittering has it all, just check the tides and wait for the wind.

KITESURF

The flat-water lagoons make kiting a dream to cruise up and down or try some freestyle tricks and boosting. As the tide gets higher the waves start to push in, so you can then ride the waves and get some air time! Staff are around to assist with launching and landing to make your experience safer.
